Railway Clerks, No. 253, at 8 P. M., hall No. 2, of Labor temple.	

## AIR TOUR IS DUE HERE WEDNESDAY

### Thirty Contesting, Nine Ac-companying Planes Will Land at Byrd Airport.

Well on its way around the 5,000-mile circuit from Detroit back to Dearborn, the national air tour, for the Edsel Ford reliability trophy, will reach Richmond Wednesday afternoon at about 4:30 o'clock. Thirty-nine airplanes, thirty of them contestants, will land on the Byrd field in rapid succession, remain there overnight, open to public inspection, and take off for the south at 10:30 the next morning.

Each of the thirty planes contesting will be carrying at least 75 per cent. of the maximum load allowed by the department of commerce, and will have to maintain a speed of at least eighty miles per hour throughout the test.

Nearly every type of plane built in America is represented in the tour, some types being twice represented with different power plants in them. The best in American aircraft will be grouped into one splendid whole during the twenty days covered by the tour. Richmonders will have the unique opportunity of seeing all of these planes landing, taking off and flying while under normal conditions of load and speed. The weather may play an important part in the contest, in cases of storm or high winds.

Through the co-operation of the Richmond Hotel Men's Association, which has agreed to furnish lodging and two meals to the visitors, and Loew's, the National and the Colonial, which theatres will afford entertain-ment to many of the airmen, the visi-tors will be put up in good style. The city of Richmond is making the air-port highly presentable, cutting the high-grass, laying wide white lines to mark the runways and laying a large concrete apron in front of the Pitcairn hangar.

Pitcairn will give the visitors free service if required and will furnish gasoline and oil, while the Goodrich Tire Company will have a special tire service truck at the field with free air. The Richmond Chamber of Com-merce, and The News Leader, are jointly sponsoring the affair by put-ting up the requisite financial outlay.

Among the famous pilots who will be with the tour are Frank Hawks, tour referee, who still holds the coast-to-coast non-stop record. Hawks will precede the tour in his Lockheed monoplane in which he made the coast-to-coast trip, and will leave his ship open to the inspection of the public. Forrest O'Brine, in a Curtiss Robin, sister ship to the one in which he and Dale Jackson established the world's endurance record, while his recent partner, Dale Jackson, will be at the controls of a Curtiss Thrush

## Objects to Being Stopped By Police

M. L. Ponder, of M. L. Ponder and Associates, of New York, a large dis-tributing firm, has sent The News Leader a copy of a letter he has written to The News York Telegram complaining because he was stopped on the road in Virginia by a Virginia motor vehicle inspector, who searched his car.

Mr. Ponder asked the New York Telegram to warn the people of New York that "anyone driving a nice auto-mobile through Richmond, Va., is in danger of being stopped by Virginia State Highway policemen and em-barassed by search as if he were a common ordinary criminal."

He adds that "I submitted to search realizing that to do otherwise might mean instant death from the hands of this policeman, and even though I was, of course, innocent, the writer did not want to be shot,—at least not in Vir-ginia."

## Seek Larger Power For Station WRVA

Officers of Station WJEBG have ap-plied to the federal radio commission for authority to increase the power of the station from 100 to 500 watts. It was announced today. No action has been taken as yet on the application.

It was explained today that the de-sire to increase the station's power was based on the belief that Richmon-d listeners could be served better. Sta-tion officials said there was no par-ticular desire to obtain greater dis-tance with increased power reception here would be much improved.

## Anderson to Speak At Ad. Club Meeting

Merrill Anderson, of Edwin Bird Wilson, Inc., New York city, will speak on "Where is Advertising Headed?" at the meeting of the Rich-mond Advertising Club Wednesday at 1 o'clock at the Chamber of Com-merce. He spoke to the club last year on "The Emotional Appeal in Advertising."

Mr. Anderson handles the adver-tising for the First and Merchants National bank, and for a number of other leading banks in various sec-tions of the country. He is a con-tributor to the American Mercury, the Century and other magazines.

## More Than 100 Cases Before Federal Court

Meeting today in the postoffice building, the federal grand jury was confronted with a docket of between 115 and 120 cases on which to decide. More than thirty of these cases arose from prohibition charges. It was stated by Paul Keay, United States attorney in charge of the prosecution. Other cases before the grand jury today are several narcotic law violations, national auto theft violations and two counterfeiting cases.

The United States circuit court of appeals will convene next Monday. A large docket will have to be dealt with.
