

# CARAVAN OF THE SKY

**A HUNDRED STRONG  
JULY 3<sup>rd</sup>. 4<sup>th</sup>. 5<sup>th</sup>.**

A distant speck in the north blue that opens imperceptibly to the full stretch of its buoyant wings the first of the Air Tour will circle into the wind and alight. Others will follow single and in groups until this greatest caravan of the sky has arrived to do homage and honor to Tulsa.

Our position as co-operators in the advance of aviation by the production of NATURALINE commits us to a special expression of welcome and encouragement to each entrant.

For Tulsa this is an occasion of historic importance in the dedication of the new municipal airport and Tulsa's first air mail. Every Tulsan has an opportunity to contribute his small share to the success of the occasion by being on the field when the Tour arrives and purchasing NOW a car sticker which is a ticket of admission.
